Campaign Management

**Streamline Campaign Management: Create, Schedule, and Reach Instantly!**

Effortlessly manage your campaigns with our intuitive campaign management feature. Create or schedule campaigns instantly for all contacts or specific groups, allowing for immediate reach or strategic timing. Maximize the impact of your marketing efforts and take control of your messaging with ease.

Integrated WhatsApp Chat

**Enhance Customer Engagement and Support**

The Integrated WhatsApp Chat feature in Calsoft provides a seamless and familiar messaging experience by faithfully replicating the native WhatsApp interface. Users can navigate effortlessly, leveraging their existing familiarity with WhatsApp's layout and functions. This consistency enhances user comfort and efficiency, facilitating smooth communication.
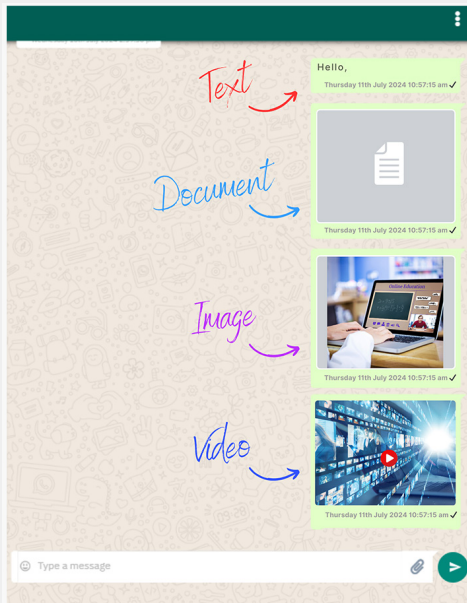

Bot Flow Builder

Simplify Bot Flow Conversion Building

Our Advance Bot Flow builder helps you to build bot conversions easily and effectively, Bot flow builder Simplifies setting triggering points from one bot to other using links for the buttons and list row options.

Reached to the Customers

**Do you want to make your chat bot interactions more exciting and engaging?**

Our Advance bot feature allows you to send images, videos, and documents as well as buttons through your chat bot. Instead of only using text, you can now impress your customers with visually pleasing images, informative videos, and useful documents. It's a great way to capture their attention and provide them with valuable content. Try now and take your chat bot interactions to the next level!

QR Code Generation

Scan QR Code to Start Chat

Quickly generate QR codes for your WhatsApp phone number with ease using this feature. Users can effortlessly connect by scanning the code with their smartphones, instantly initiating communication with your WhatsApp account. This streamlined process ensures smooth interactions and easy access for engaging with your audience.
